

Plantation of Plash Trees

Pursuance to the Swachh Bharat Mission drive, SJVN has undertaken a large number of cleanliness oriented programs. Such programs aim not only at cleanliness but also on sustainability. One of such program is plantation of Plash tress (*Butea monosperma*). Nathpa Jharkri Hydro Power Station-1500 MW in HP has initiated a program of plantation of Plash trees in Project area villages.

Tree Plantation of Palash (*Butea monosperma*) sustainability

The plash trees will not only enhance the panoramic look of the surrounding area but the plates and bowls made of its leaves will reduce the plastic usages and enhance the rural economy thereby.
