| <p><b>1</b></p> | <p>We would like to draw your kind attention to Point No. 06 – Mandatory Spares in the Technical Specifications. <b>we seek your clarification for the following mentioned under mandatory spares.</b></p> <p><b>1. Tube Quantity:</b></p> <p>The Design code limits the LHS tube length to 40 meters per system, with a maximum of 10 meters per branch. However, in actual installations, the tube length depends on the enclosure size and layout. It is therefore unclear whether:</p> <p>The vendor should consider a total of 40 meters per system, or Restrict to 10 meters per branch irrespective of system requirement.</p> <p>Additionally, since the LHS tube is common for all cylinder types, it is not clear whether the vendor is required to consider separate tube quantities for each cylinder system or a consolidated quantity per system.</p> <p><b>2. Fittings</b></p> <p>The specification mentions “2 sets” of fittings; however, it is not clearly defined whether this refers to:</p> <p>2 sets per individual cylinder system, or</p> <p>2 sets for the overall system.</p> <p><b>3. Control Unit, Pressure Switch/Gauge</b></p> <p>These components are common across cylinder systems. It is therefore requested to clarify whether:</p> <p>2 sets are required per cylinder system, or</p> <p>2 sets are required for the complete system as a whole.</p> <p>In view of the above ambiguities, we request you to kindly provide detailed clarification to enable us to submit our offer in full compliance with the tender requirements.</p> | <p><b>1. Tube quantity:</b> The tube length depends on the actual enclosure size and routing. Therefore, the bidder shall consider tube quantity based on <b>actual system design and layout</b>, while adhering to design code limitations (i.e., maximum 40 meters per system and 10 meters per branch)</p> <p>The spare tube quantity shall be considered <b>on a consolidated basis for the entire system as 80 meters</b>. No separate quantity is required for each cylinder type, as the tube is common for the system.</p> <p><b>2.
